PREFACE

This book is based upon the Carroll County Probate Marriage Record Book Volume II and covers the years 1850 to 1866. An incredible amount of preparation went into copying the marriages. The original ink has faded and was very hard to read for 1861, 1862 and 1863. The records were copied as they appeared and the spelling was not changed. Remember to check variant spellings because early clerks often recorded names as they sounded. The microfilm was checked twice for accuracy. Next the card file index was compared with the minister's returns, certificates, and even assents and permission affidavits. Although extreme care has been taken we found many variants and these are indicated under the entry. Please use our work as a guide to the probate record and consult the original if you question our interpretation.

The first section of the book will again be a chronological listing by assigned number of the officiants who performed the marriage ceremony. We have given some clues as to township they served as Justice of the Peace or the congregation if a minister of the gospel. A map of the townships in Carroll County with locations of early villages and towns will give you a point of reference in locating your ancestor's place of residence.

A small number of 1849 entries were recorded in Vol. II. We had extracted those entries and included them in Vol. I.

The marriages are arranged alphabetically by surname with see references to cross-reference the bride's maiden name.

Sara (Flinn) Finnicum
Linda (Gernert) Houyouse
